

Philadelphia Vireo (*Vireo philadelphicus*), Pena Blanca Lake, Santa Cruz County

This Philadelphia Vireo was photographed by Caleb Strand on 20 October 2022.

Philadelphia Vireo is a casual fall migrant, with about 25 total records for the state. Most of the records are from Late September and October.

Like Warbling Vireo with slight amount of dark in lores, bright yellow throat, breast, flanks, and ventral feathers, and smaller bill.
