

## **Reddish Egret (*Egretta rufescens*), 10 miles east of Yuma, Yuma County**

This Reddish Egret was photographed by HENRY DETWILER on 30 August 2020.

Reddish Egret is a rare late summer wanderer from Mexico. It has increased in regularity in recent years, and was removed from the ABC review list in 2011; there are now more than 40 records from the state.
